Sample Report

Introduction

This report describes a small experiment in readability.
It exists only so the tests have a predictable document.

This paragraph has an exam-
ple of a hyphenated line break that should be joined.

Key points follow as a list.

- one
- two

Methods

We measured reading speed with and without restyling.
Participants read the same text in both forms.

Results

Restyled text was read 12% faster on average.
Comprehension scores did not change.
